

How to Enroll Your Dealership In ElectrifiQ!

A step-by-step guide to using your state-funded coupon code.

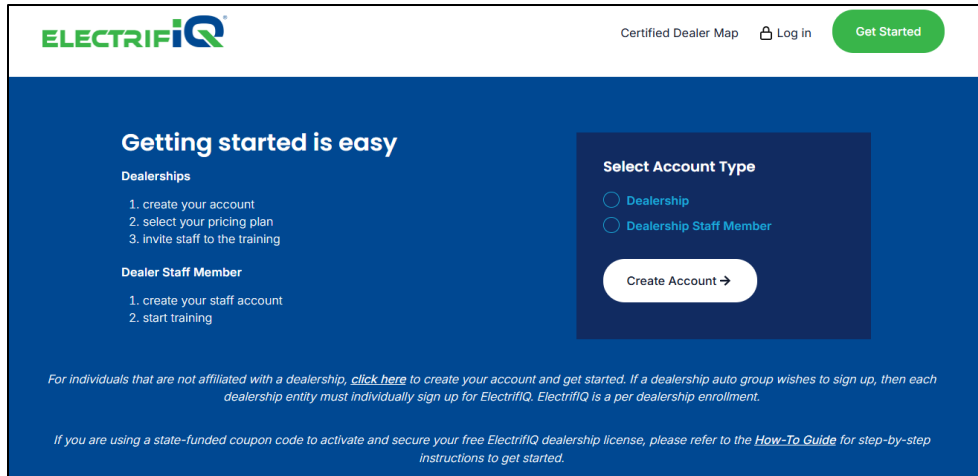

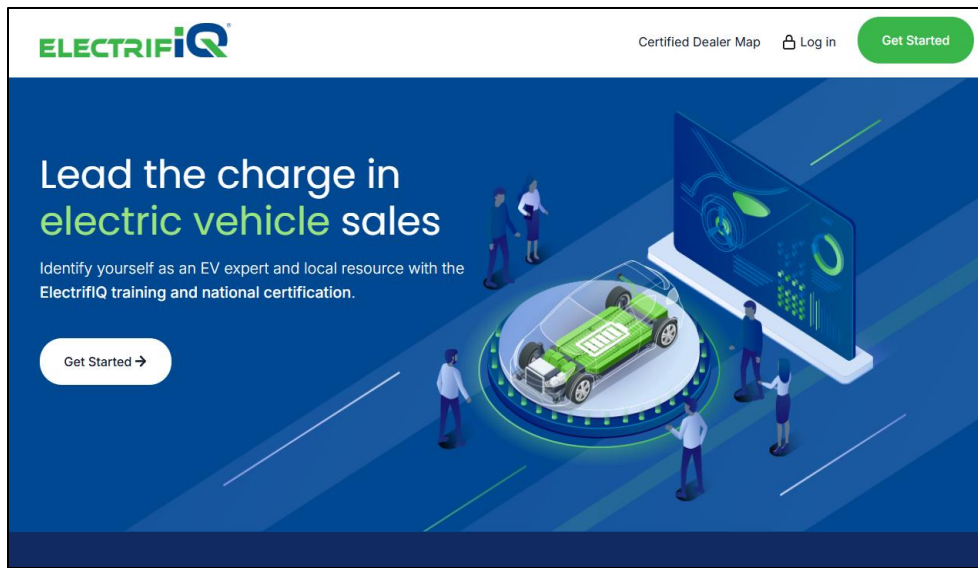

Please Note

ElectrifiQ is an online training course designed to give your dealership a competitive edge with in-depth EV know-how and selling techniques. **The 90-minute course license costs \$495 per dealership, but if you're in a state offering a coupon code, then you can enroll your dealership for free!**

PLEASE NOTE: Coupon codes are available for a limited time in each state. Receiving a coupon code via email or through other forms of communication does not guarantee a free ElectrifiQ dealership license, as coupon code licenses are limited and subject to availability. Once all coupon codes for a state are claimed, additional codes may no longer be offered.

Scroll to the next page to see how to use your state coupon code.

Step 1

Go to www.electrifiq.org and select “Get Started.” The Get Started page is also where this how-to guide is located. On the “Get Started” page, select “Dealership,” and click “Create Account.”

Step 2

Enter your dealership name, address and dealership-specific URL. If you have your dealership's state license number, you can include it, though it's optional. Scroll down to enter your details and create a password. Finally, verify your information and click "Submit" to enroll your dealership! (Note: The user who completes this step will be designated as the primary dealership manager on ElectrifiQ.)

Dealership Enrollment

All dealerships are now eligible to participate. You may use the form below to enroll one dealership at a time. Dealer group enrollments are not currently available.

- **Registered Dealerships:** Please enter in your dealership state license number in the field below. This number will be used in the verification of the dealership for the dealership referral network.

Dealership Information

* Dealership Name

State Dealership License Number

* Dealership Street Address

* City

* State

* Zip Code

* Specific Dealership URL

Primary Dealership Contact

The primary contact for a dealership is typically a General Sales Manager, Finance Manager or the Owner. This individual will be responsible for managing the dealership account, including inviting other staff to register to the dealership account.

Overview

This course is for dealership users who would like to access the training course for their whole dealership rooftop. **You only need to purchase one dealership access option.** Auto group dealerships will need to buy the dealership access via a separate ElectrifiQ account as we are unable to provide auto group access. Once you buy the dealership option you and your invited staff will have access to this course for two years. You can invite users to take the training from your ElectrifiQ dashboard. If you are interested in access for a single user, please select the [individual user option](#)

Step 5

In your cart, the course will be listed at \$495. Enter the promo code provided to you and click “Update,” and the price will drop to \$0! Next, click “Checkout Now” and then confirm your contact information before clicking “Continue.” You'll then gain free access to the ElectrifiQ course! (Please note, it may as long as a day for the course to activate for your staff members.)

Step 7

If you'd like to invite staff members from your dealership rooftop to have access to the course and get certified, simply navigate to your dealer dashboard which was the prior tab (shown to the left). You can invite unlimited staff members from your dealership rooftop using the "Invite Staff" button. Once each staff member creates their personal account, and navigates to your ElectrifiQ dealer dashboard, please have them click "Select Training Plan." In the new tab, they select "Get Dealership Access" and then "Start" as shown in Step 6 to begin the course.
